**NOOD CO. - SETTING A NEW STANDARD**

Nood Co. is Australia's first design-based, concrete furniture and homewares company, set on redefining the concept of concrete. Their designs are feminine and contemporary; the concrete is thinner, stronger, and sets a new standard for water tolerance and abrasion resistance. Take for instance, the bowl sink (pictured): Effeminate and refined, the moulded curves and soft pastels fuse together, allowing this modest sink to become the hero of the bathroom. The best part? Nood Co. safely deliver their goods all across Australia.
